

S.B.D.

Secured By Design...

Arden Windows will now supply timber windows with Secured By Design (SBD) certification Free Of Charge (FOC)*

When other manufacturers are charging a premium for SBD certified products, Arden Windows will not.

Strong & Secure

All our casement windows feature as standard a twin-cam security system which offers double protection and out-performs equivalent shootbolt espagnolettes.

Pair of 'mushroom' cams

Security striker for twin-cam locations

Easy to operate

With a simple turn of the handle, the unique gearbox activates high strength 'mushroom' twin-cams. This double action locking significantly enhances resistance to jemmying from all directions and strengthens the window's security.

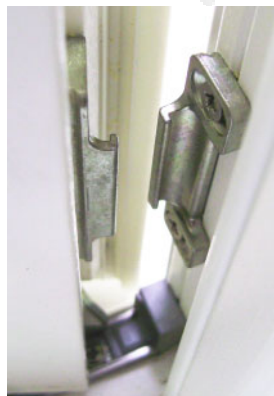

Reliability

As with all of Arden Windows products, we will only fit parts that have excellent corrosion resistance, and which utilise high quality materials. All ironmongery comes with a 10 year guarantee (see www.ardenwindows.net/guarantee - for further details).

If you have a project you would like us to quote please **phone 02476 632423** or email your enquiry details to info@ardenwindows.net

Full length twin-cam locking system

Interlocking hinge protectors for added security

...Free Of Charge*

F.O.C.

*This Offer is available on all new orders from 15/10/08, based on our standard espagnolette system but excludes laminated and/or toughened glass. Refer to the appropriate Architectural Liaison Officer (ALO) or Crime Prevention Design Advisor (CPDA) for advice on glazing requirements. This Offer includes casement windows only and excludes sliding sash windows. Certain window types/designs may fall outside the scope of the Secured By Design standard. Arden Windows reserves the right to amend, withdraw or exclude products from this offer at any time. Offer ends 31/03/09.
